

Temperature Log for Refrigerator (Fahrenheit)

Day 1 – 15 Month/Year:

VFC PIN #:

- **Completing this temperature log:** Check the temperature in the refrigerator compartment of your vaccine storage unit at least twice each working day. Place an "X" in the box that corresponds with the temperature, the time of the temperature reading, and your initials. Save each month's completed form for 3 years, unless state or local jurisdictions require a longer time period.
- **If the recorded temperature is warmer than 46°F or colder than 35°F:** this represents an unacceptable temperature range. **You must take action!**

Take Action!

- If temperature is **too warm** (above 46°F) or **too cold** (below 35°F):
 1. **Store the vaccine** under proper conditions as quickly as possible.
 2. **Temporarily mark exposed vaccine "do not use"** until you have verified whether or not the vaccine may be used.
 3. **Call the VFC Program** for further assistance at (800) 483-2543.
 4. **Document the action taken** on the reverse side of this log.
