

# Pinellas County Community Health Improvement Plan

## Healthy Environments

Strategic Issue: How can we ensure an environment that is safe and provides access to opportunities for a healthy lifestyle?

---

**Goal HE1: Establish an integrated planning and assessment process to maximize partnerships and expertise of the community in accomplishing its goals**

**Strategy HE1.1** Include a public health component in community planning processes to increase awareness and opportunity for the built environment to impact healthy behaviors within Pinellas County municipalities

**Strategy HE1.2** Include a public health component in community planning processes to increase awareness and opportunity for the built environment to impact healthy behaviors within the Pinellas County government

**Strategy HE1.3** Include a public health component in community planning processes to increase awareness and opportunity for the built environment to impact healthy behaviors within the non-governmental public and private sectors

---

**Goal HE2: Increase access to nutritious and affordable foods**

**Strategy HE2.1** (EBT/Affordability?)

**Strategy HE2.2** Expand and continue ongoing efforts within the school system to provide students with access to nutritious and affordable food

---

**Goal HE3: Increase access to safe opportunities for physical activity**

**Strategy HE3.1** (Safe Routes/sidewalks/safe routes to schools?)

**Strategy HE3.2** Promote safety for people to live active lives by increasing community policing and perceived community safety

**Strategy HE3.3** Continue on going efforts to ensure availability of parks and open space (through land share agreements/through identification and expansion of park locations?)

---

**Goal: HE4: Revitalize targeted communities to create a safe and healthy living environment**

**Strategy HE4.1** Address sub-standard housing and living conditions through assessment and remediation in targeted communities

**Strategy HE 4.2** (neighborhood/community focus?)
