

# PINELLAS COUNTY

## Community Health Action Team

September 12, 2012

**SPONSORED BY:**  
**PINELLAS COUNTY HEALTH DEPARTMENT**

# Introduction

2

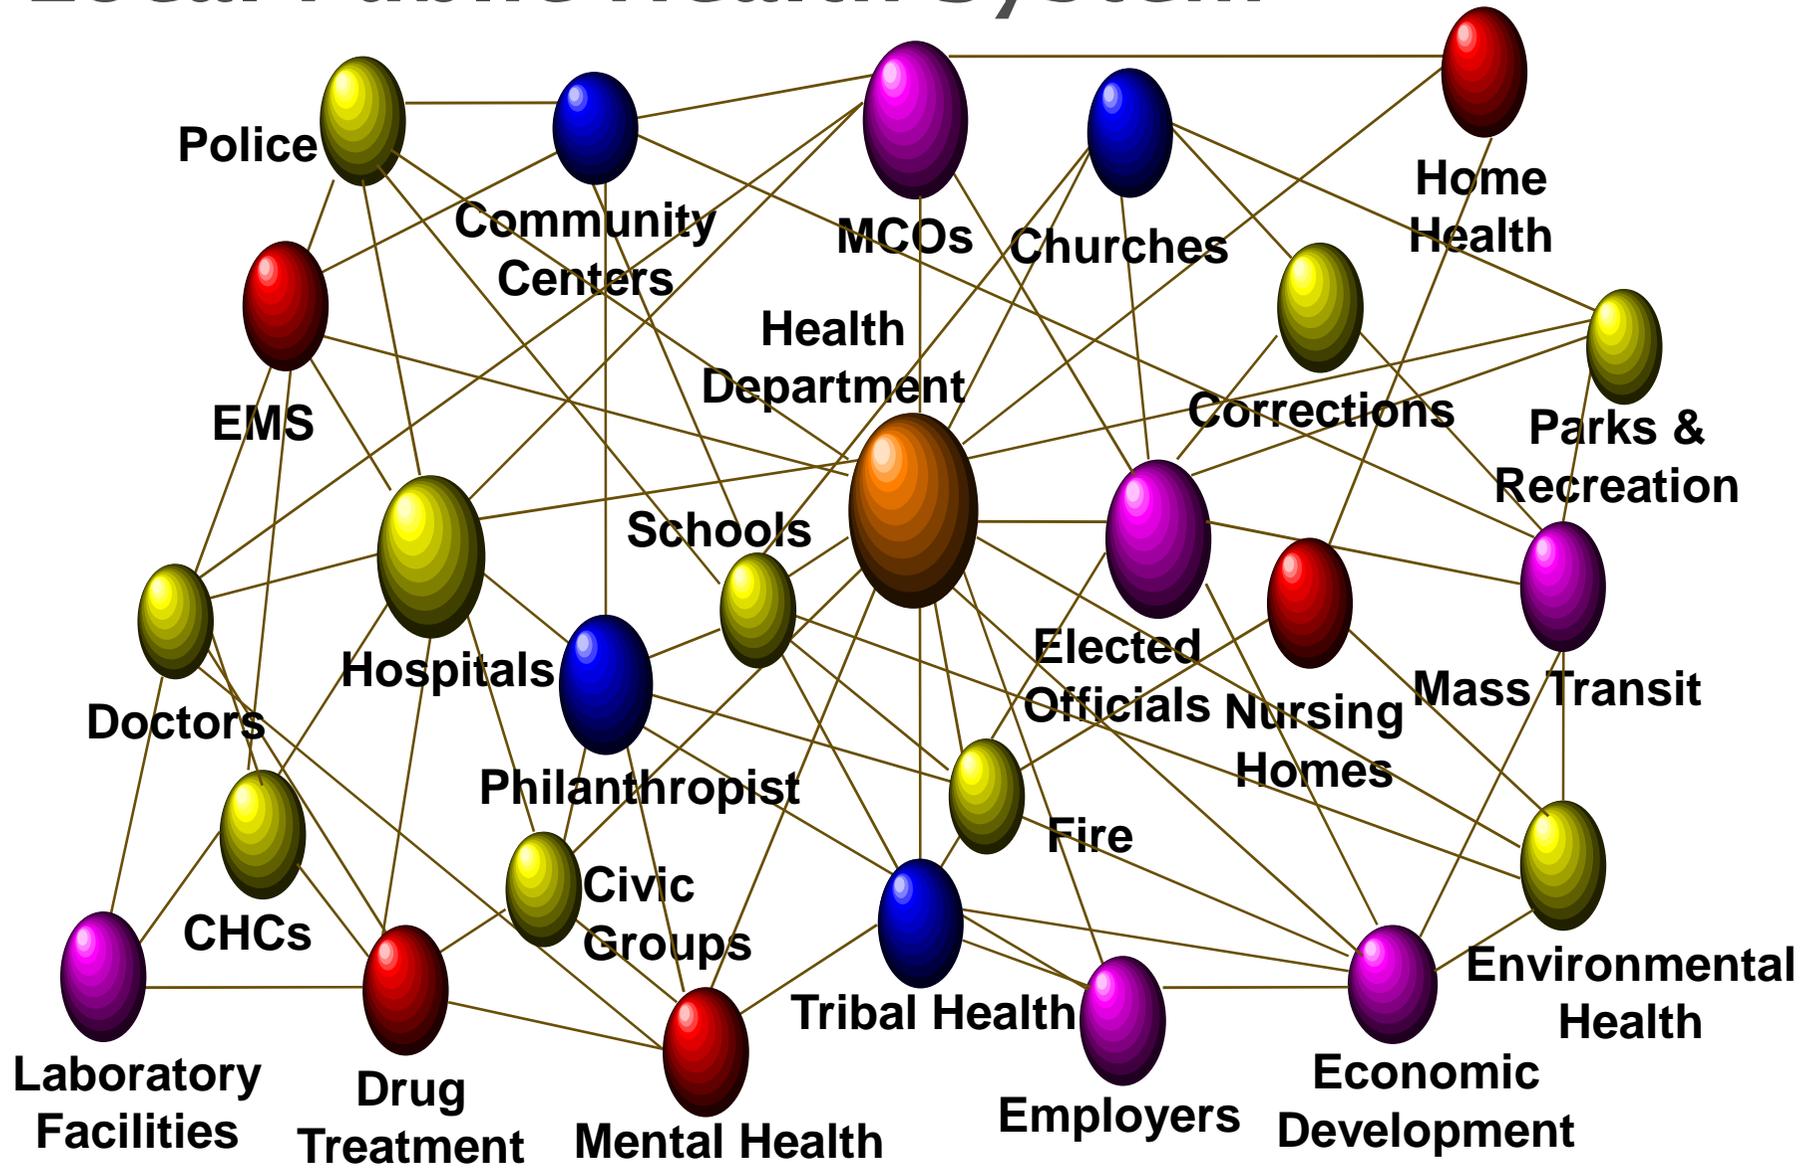

- Who, what, where, when, why, and how
- Local Public Health System Overview
- State Health Improvement Plan
- CHA, CHIP, and MAPP overview
- Pinellas County Community Health Assessment overview

# Introduction

3

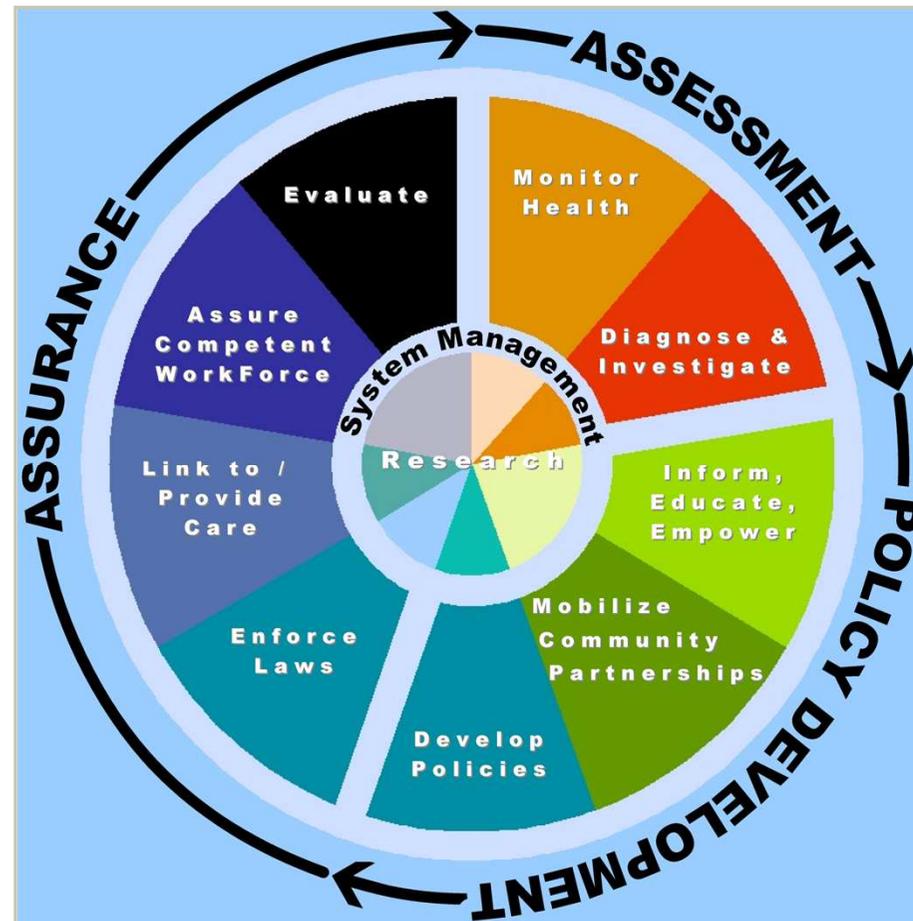

- **Who**: Community owned and led by CHAT
- **What**: Community Health Improvement Plan
- **Where**: Pinellas County
- **When**: 2013-2017 CHIP
- **Why**: core function of public health
- **How**: using the MAPP framework; based on CHA and other community assessments

# Local Public Health System

Monitor Health Status  
 Diagnose/Investigate  
 Educate/Empower  
 Mobilize Partnerships  
 Develop Policies  
 Enforce Laws  
 Link to/Provide Care  
 Assure Workforce  
 Evaluate Services  
 Research/Innovations

## Core Functions & Essential Services of Public Health

# State Health Improvement Plan (SHIP)

6

- 2012-2015 SHIP
- Strategic Issue Areas:
  1. Health Protection
  2. Chronic Disease Prevention
  3. Community Redevelopment and Partnerships
  4. Access to Care
  5. Health Finance and Infrastructure

# Community Health Assessment (CHA)

7

- The process of systematically collecting, analyzing, and using information to educate and mobilize communities, develop priorities, gather resources, and plan actions to impact health.
- Assessment is one of the core functions of public health and community health assessment is the foundation for improving and promoting healthier communities.

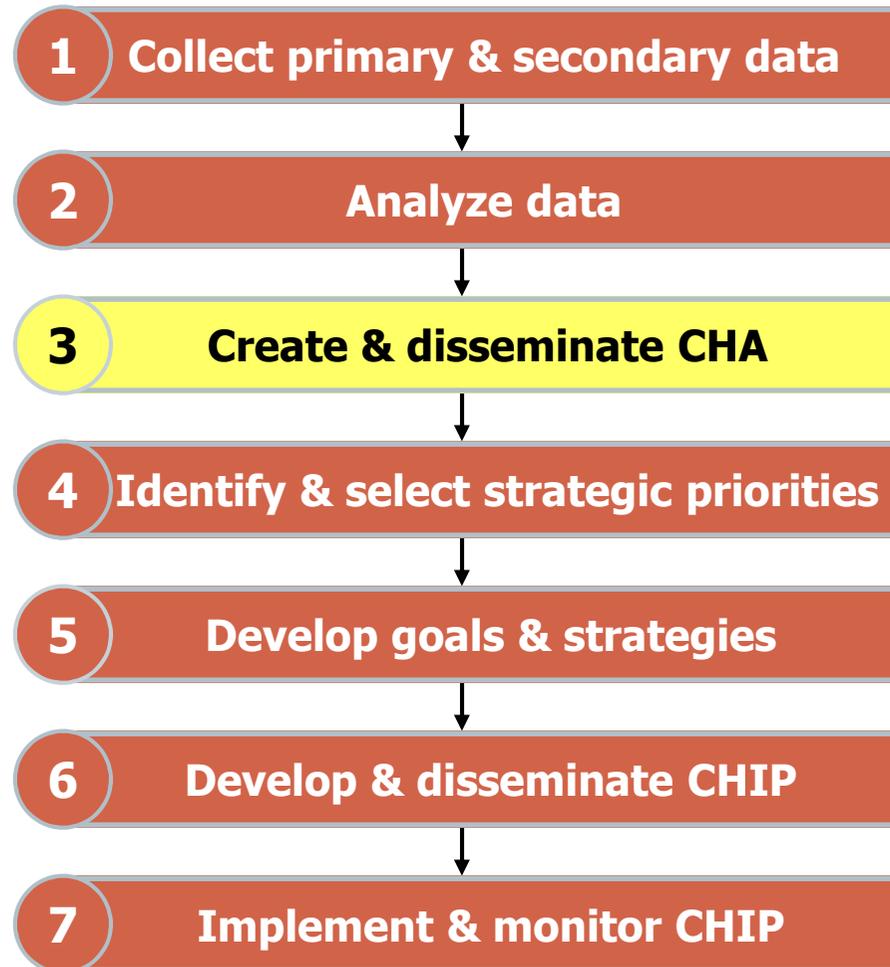

# Community Health Improvement Plan (CHIP)

8

- Long-term, systematic effort to address health problems on the basis of the results of assessment activities and the community health improvement process.
- Used by community partners to set priorities, coordinate and target resources, and outline strategies and structures to promote health.

# Community Health Improvement Planning

9

# MAPP

10

- Mobilizing for Action through Planning and Partnerships (MAPP)
- Community driven strategic approach to community health improvement planning developed by the National Association of County and City Health Officials.

**NACCHO**  
National Association of County & City Health Officials

# MAPP ASSESSMENTS

**Community Themes & Strengths**  
What is important to our community? Perceptions about quality of life? What assets do we have?

**Local Public Health System**  
What are the activities, competencies, and capacities of our local public health system?

**Forces of Change**  
What is occurring or might occur that will affect the LPHS or the community?

**Community Health Status**  
What does our health status look like? How healthy are our residents?

**IDENTIFY & SELECT STRATEGIC PRIORITIES**

# Community Themes and Strengths

12

**The Community Themes and Strengths Assessment** provides an understanding of the issues residents feel are important. It allows us to consider the concerns and perceptions of residents and ensure they have a sense of ownership and responsibility for the outcomes.

# Community Themes and Strengths

13

Answers the following questions:

- What is important to our community?
- How is quality of life perceived in our community?
- What assets do we have that can be used to improve the health of our community?

# Community Themes and Strengths

14

Understanding the experiences, perceptions, and priorities of community residents is a critical part of the MAPP process and offers valuable information when identifying overall priorities for improvement. Two primary approaches to invite community input were utilized:

1. Collaborative engagement
2. Community survey

# Collaborative Engagement

15

- On May 8, 2012, Pinellas County Health Department sponsored a Community Health Assessment collaborative engagement using the Collaborative Labs at St. Petersburg College.
- Participants assessed the 10 Essential Public Health Services including themes, strengths, and forces of change that affect the local public health system.
- Nearly 70 community partners representing more than 30 organizations participated.

# Stakeholders Represented

16

- Pinellas County Health Department
- Pinellas County
- Pinellas County Schools
- Tampa Bay Partnership
- Health and Human Services Coordinating Council
- Suncoast Health Council
- University of South Florida
- Tampa Bay Health Care Collaborative
- Juvenile Welfare Board
- Disability Achievement Center
- Pinellas County Medical Association
- Healthy Start Coalition of Pinellas
- Florida Covering Kids and Families
- Sickle Cell Disease Association
- Hispanic Leadership Council
- Pinellas County Sheriff's Office
- Molina Healthcare
- BayCare Health System
- All Children's Hospital
- Moffitt Cancer Center
- St. Petersburg Free Clinic
- Community Health Centers of Pinellas
- Directions for Living
- Personal Enrichment through Mental Health Services
- Suncoast Center
- Suncoast Hospice
- AIDS Service Association of Pinellas
- YMCA
- R'Club
- Neighborhood Family Centers

# Methodology

17

- Revisited a recent visioning exercise conducted by the Pinellas County Health and Human Services Coordinating Council.
- Ten teams assessed an assigned “essential” area and identified the top three themes and strengths from their evaluations.
- Information was shared and discussed with the full group for additional feedback.

# Themes and Strengths Summary

18

ES	Theme	Strength
<b>ES 1</b>	<ul style="list-style-type: none"> <li>• linking program performance measures to indicators</li> <li>• development of health registries</li> </ul>	<ul style="list-style-type: none"> <li>• electronic data access</li> <li>• national and local collaboration &amp; partnerships</li> </ul>
<b>ES 2</b>	<ul style="list-style-type: none"> <li>• improve distribution of surveillance results to providers</li> <li>• require treatment compliance measures and compliance for behavioral health patients</li> </ul>	<ul style="list-style-type: none"> <li>• social media</li> <li>• additional county regulations facilitating investigation and oversight</li> </ul>
<b>ES 3</b>	<ul style="list-style-type: none"> <li>• creating health champions</li> <li>• accessibility</li> </ul>	<ul style="list-style-type: none"> <li>• sharing information</li> <li>• repository of information</li> </ul>
<b>ES 4</b>	<ul style="list-style-type: none"> <li>• overcoming barriers to accessibility</li> <li>• integrated health and social services</li> </ul>	<ul style="list-style-type: none"> <li>• local technology improvements</li> <li>• increased outreach initiatives</li> </ul>

# Themes and Strengths Summary

ES	Theme	Strength
<b>ES 5</b>	<ul style="list-style-type: none"> <li>• challenges of coordinating a collective 24 municipalities to maximize the use of existing resources</li> </ul>	<ul style="list-style-type: none"> <li>• collaborative efforts of agencies and organization on grant opportunities and services</li> <li>• health system that is nationally recognized</li> </ul>
<b>ES 6</b>	<ul style="list-style-type: none"> <li>• health care debate</li> <li>• limiting the role of government in health and welfare of citizens</li> </ul>	<ul style="list-style-type: none"> <li>• leaders willing to support and create regulations to affect the health of the community</li> <li>• private and public collaboration</li> </ul>
<b>ES 7</b>	<ul style="list-style-type: none"> <li>• eliminating egos</li> <li>• planning, coordinating, and collaborations must engage the end user</li> </ul>	<ul style="list-style-type: none"> <li>• numerous health care and service providers</li> </ul>

# Themes and Strengths Summary

ES	Theme	Strength
<b>ES 8</b>	<ul style="list-style-type: none"> <li>• culturally diverse and competent service providers</li> <li>• public vs. private compensation</li> </ul>	<ul style="list-style-type: none"> <li>• academic partnerships</li> <li>• level of collaborations</li> </ul>
<b>ES 9</b>	<ul style="list-style-type: none"> <li>• reviewing and revising standards of care</li> <li>• community and neighborhood standards that stress the health of all communities</li> </ul>	<ul style="list-style-type: none"> <li>• multiple data sources</li> <li>• resource rich community</li> <li>• health department</li> <li>• community centers</li> <li>• residency programs</li> </ul>
<b>ES 10</b>	<ul style="list-style-type: none"> <li>• community based organizations involvement in all phases of the research process</li> <li>• limited life of funding/grants funding- limited sustainability of research, programs, and services</li> </ul>	<ul style="list-style-type: none"> <li>• strong collaborative partnerships amongst academia, coalitions, task forces, councils</li> <li>• number of higher education institutions</li> </ul>

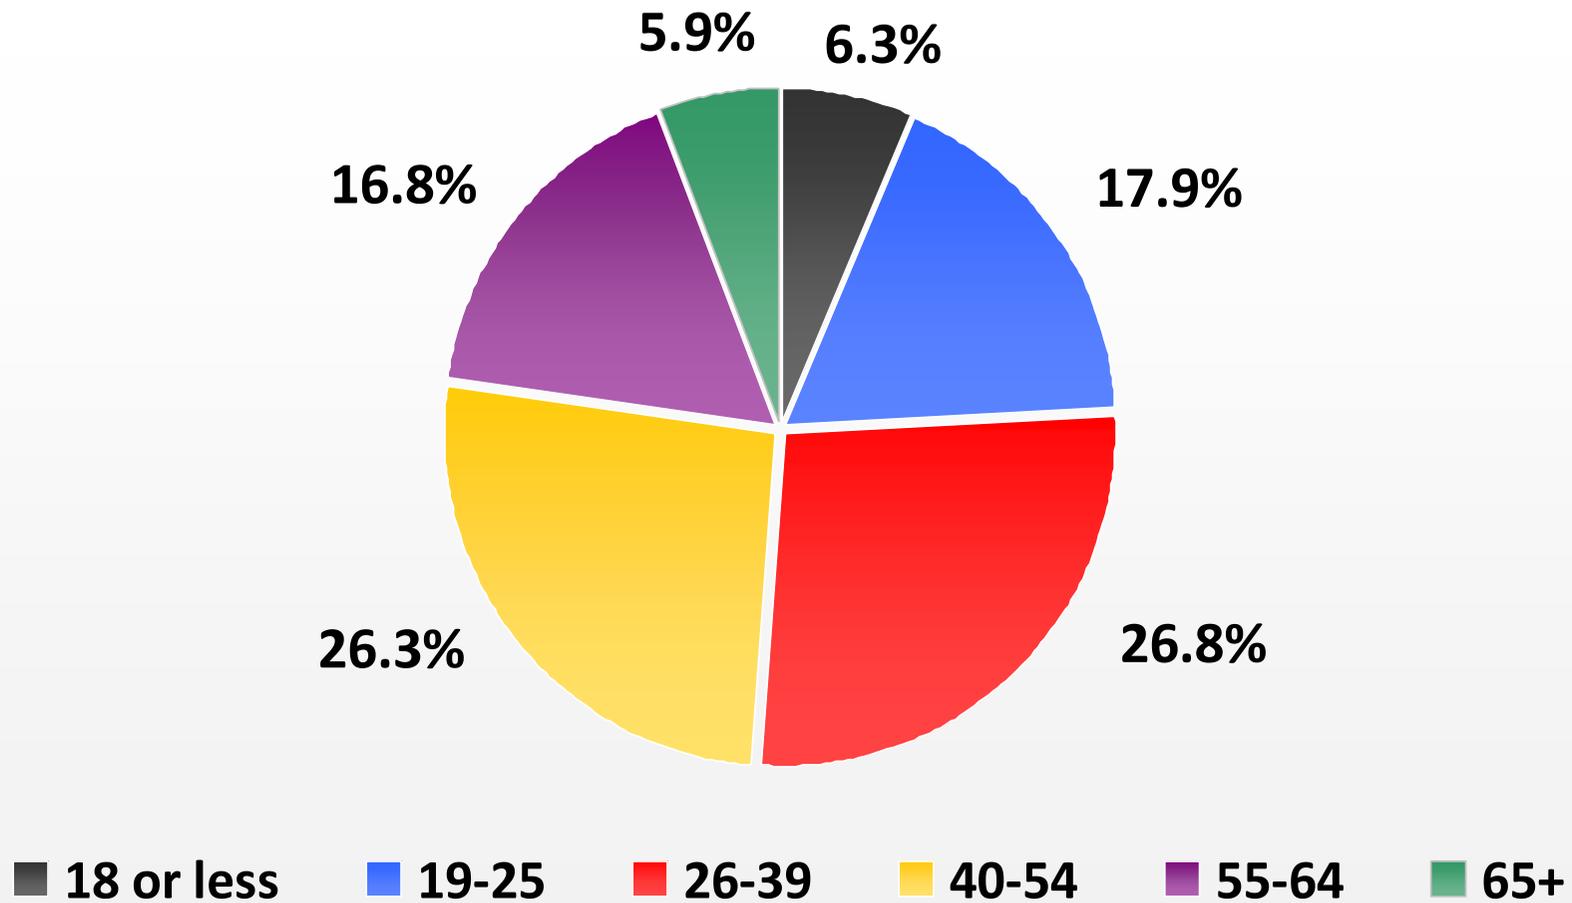

# Community Survey

21

- The Pinellas County Community Themes and Strengths survey assayed perceived community health, individual health, and other quality of life issues among county residents.
- Survey was available in English and Spanish
- Survey collection spanned 5 weeks utilizing both paper and electronic surveys collected via the health department website, clinics, home visiting services, and partner organizations.

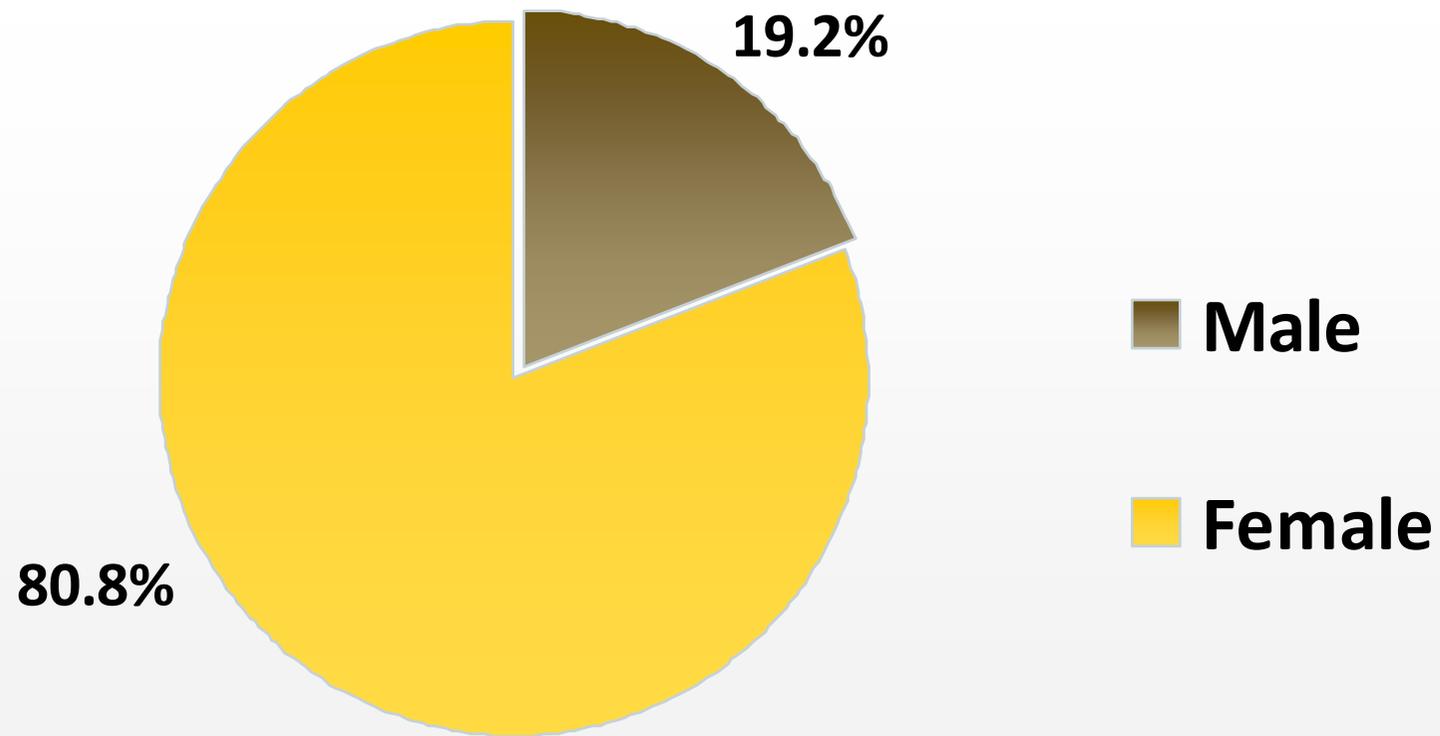

# Respondents by Age (n=814)

22

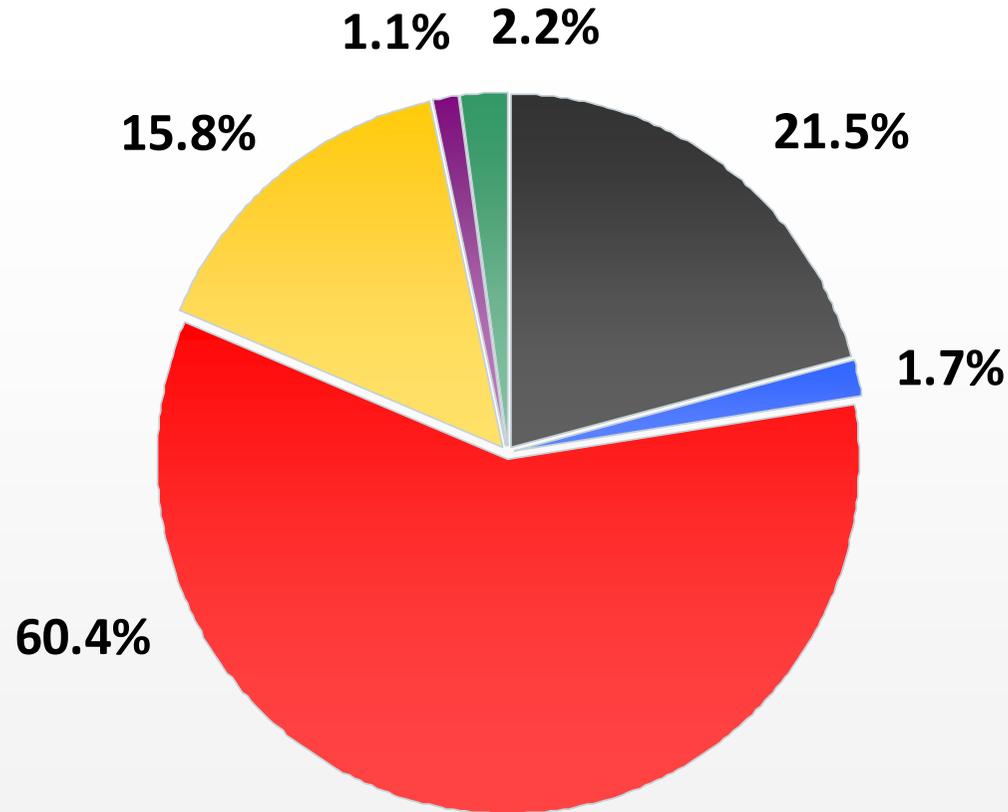

# Respondents by Gender (n=795)

23

# Respondents by Race/Ethnicity (n=814)

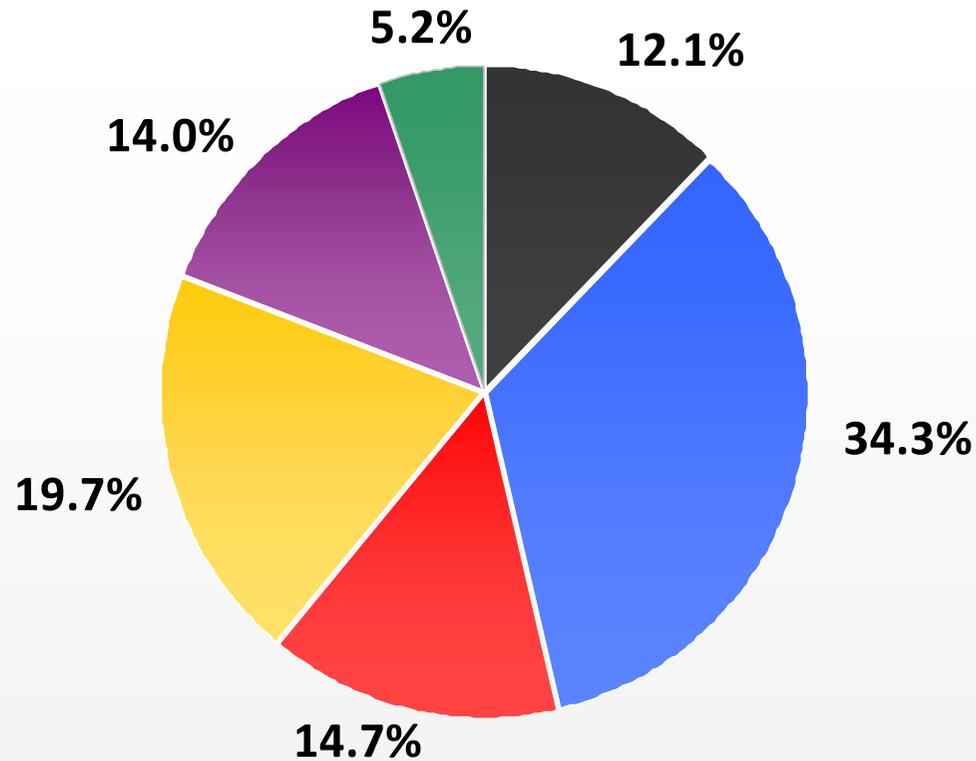

24

■ Black/African American   ■ Asian/Pacific Islander   ■ White/Caucasian  
■ Hispanic/Latino   ■ Native American   ■ Other

# Respondents by Educational Attainment (n=808)

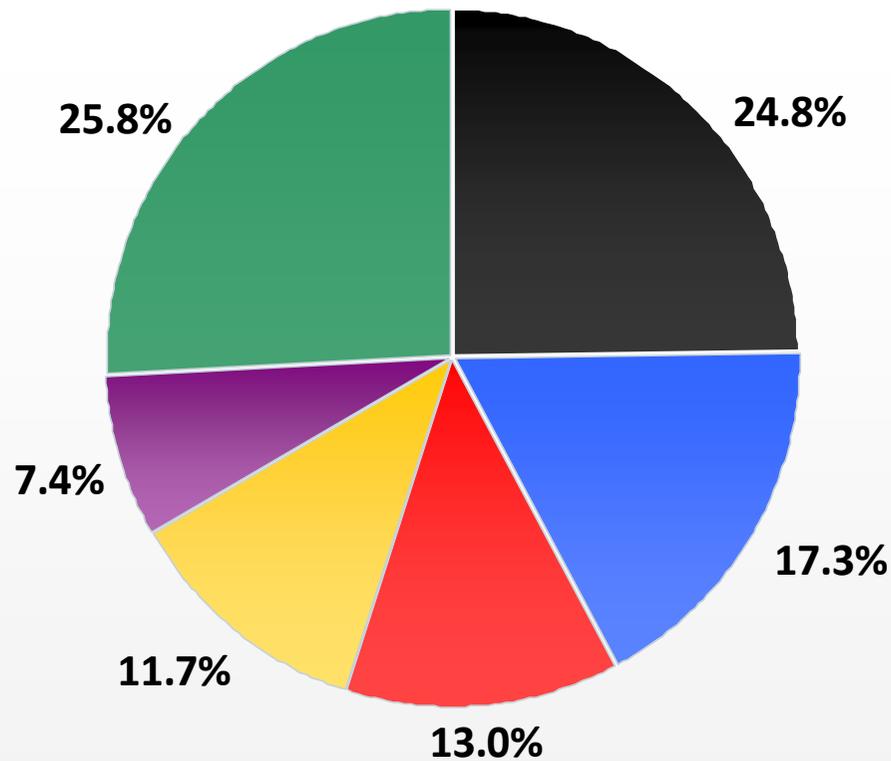

25

- Less than high school
- High school/GED
- 2 Year Degree
- Bachelor's Degree
- Advanced Degree
- Other

# Respondents by Household Income (n=775)

26

■ Less than \$15,000

■ \$15,000-25,000

■ \$25,001-35,000

■ \$35,001-45,000

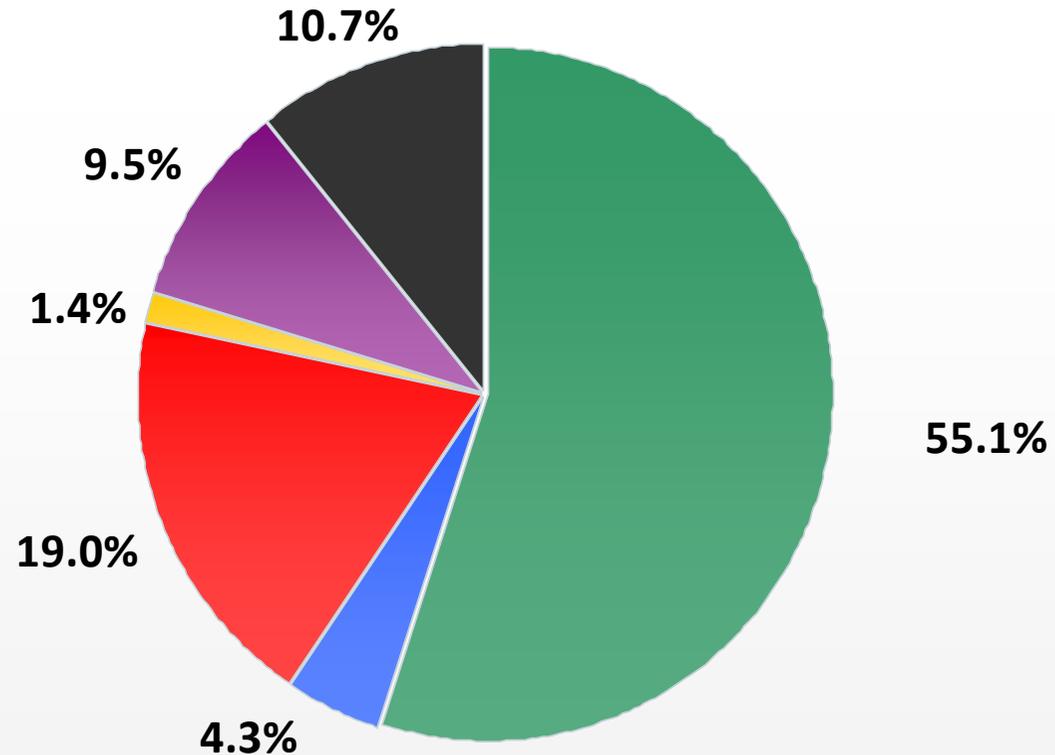

■ \$45,001-55,000

■ \$55,000+

# How is Your Health Care Paid For?

(n=798)

27

■ Private Insurance

■ Medicare

■ Medicaid

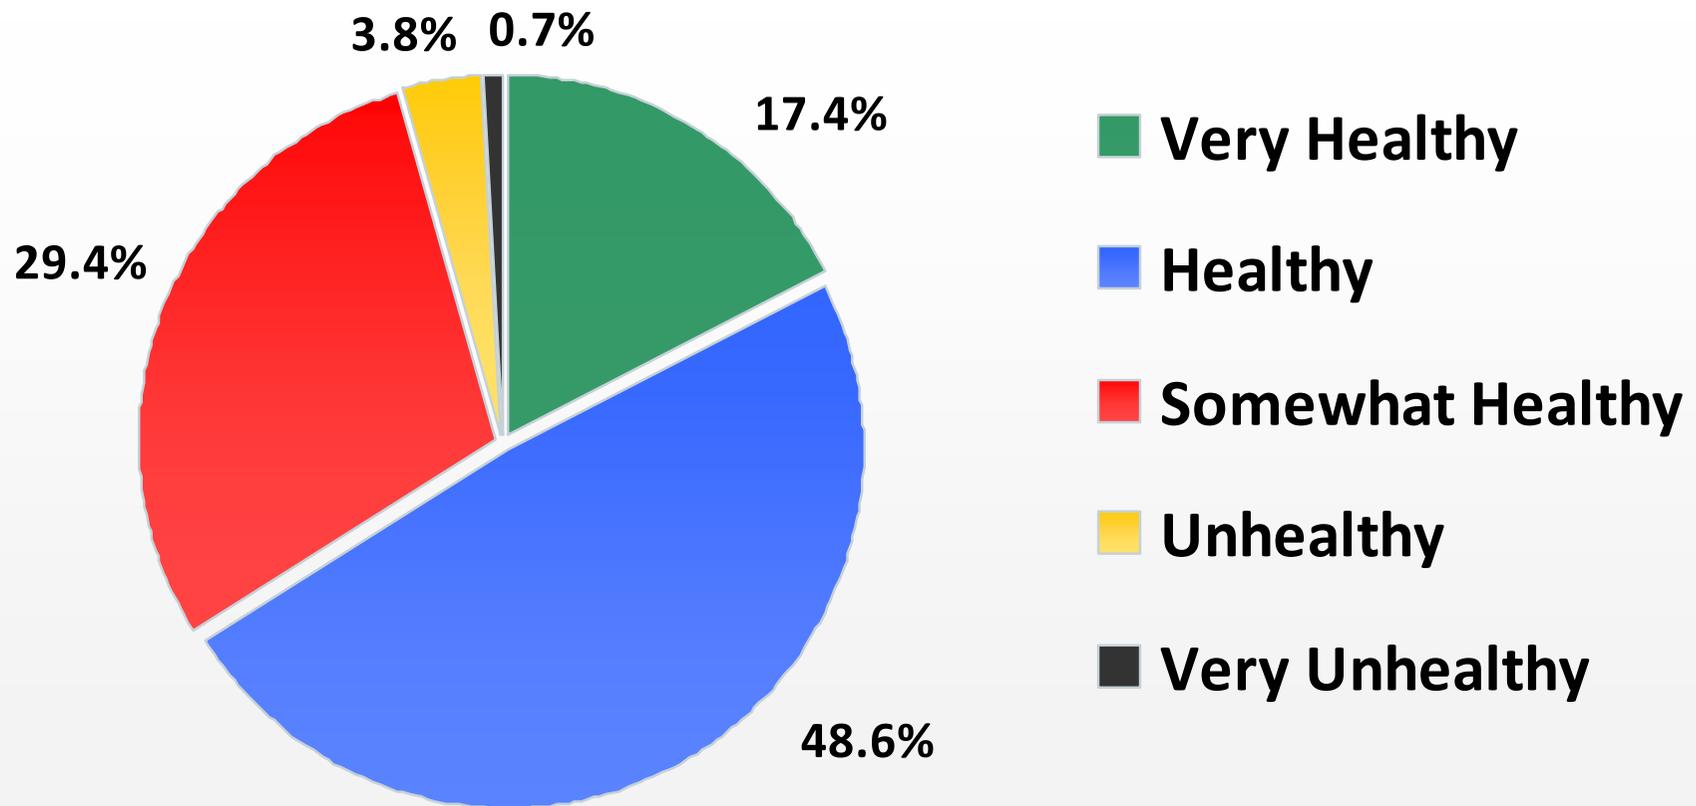

■ Military/VA

■ No Insurance (self pay)

■ Can't Afford Care

# How Healthy are You? (n=813)

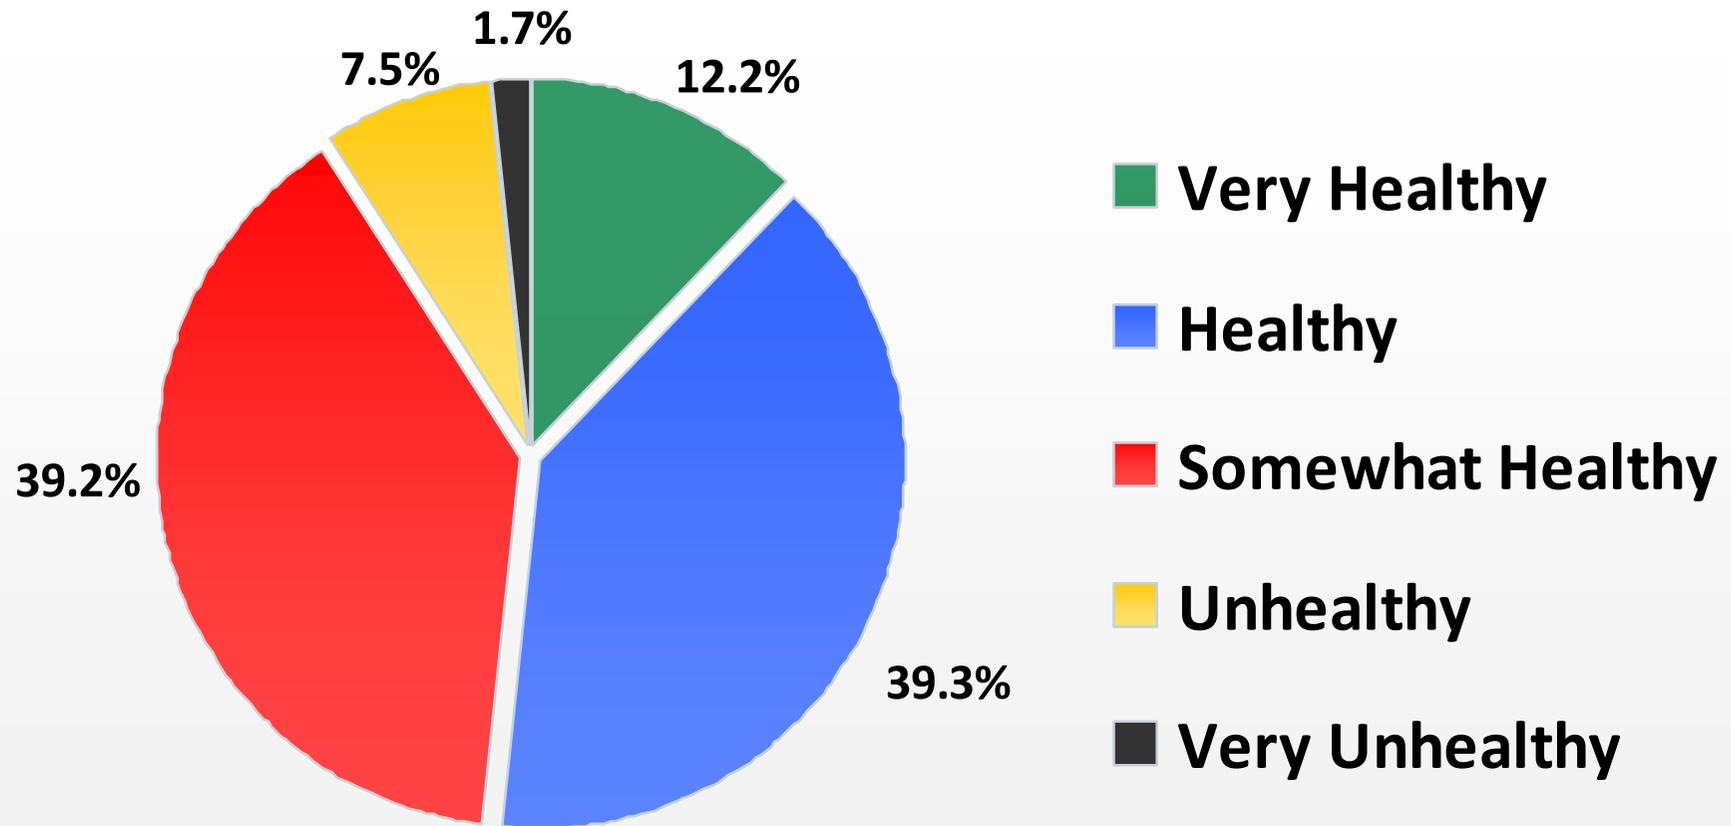

28

# How Healthy is Your Community?

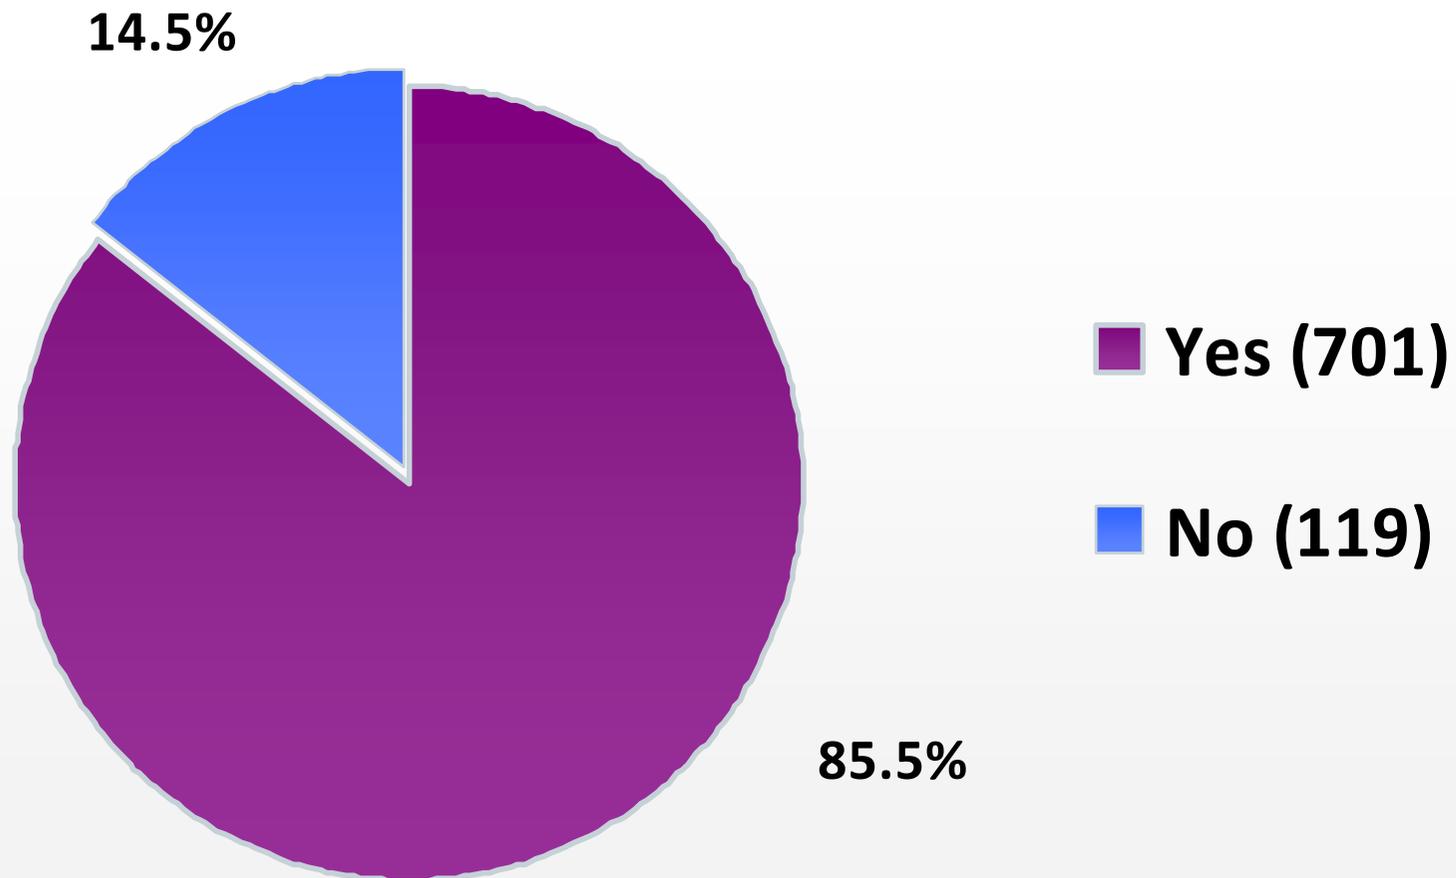

(n=827)

29

# Do You Think your Community is a Good Place to Raise Children? (n=825)

31

# Most Important Factors For a Healthy Community (n=832)

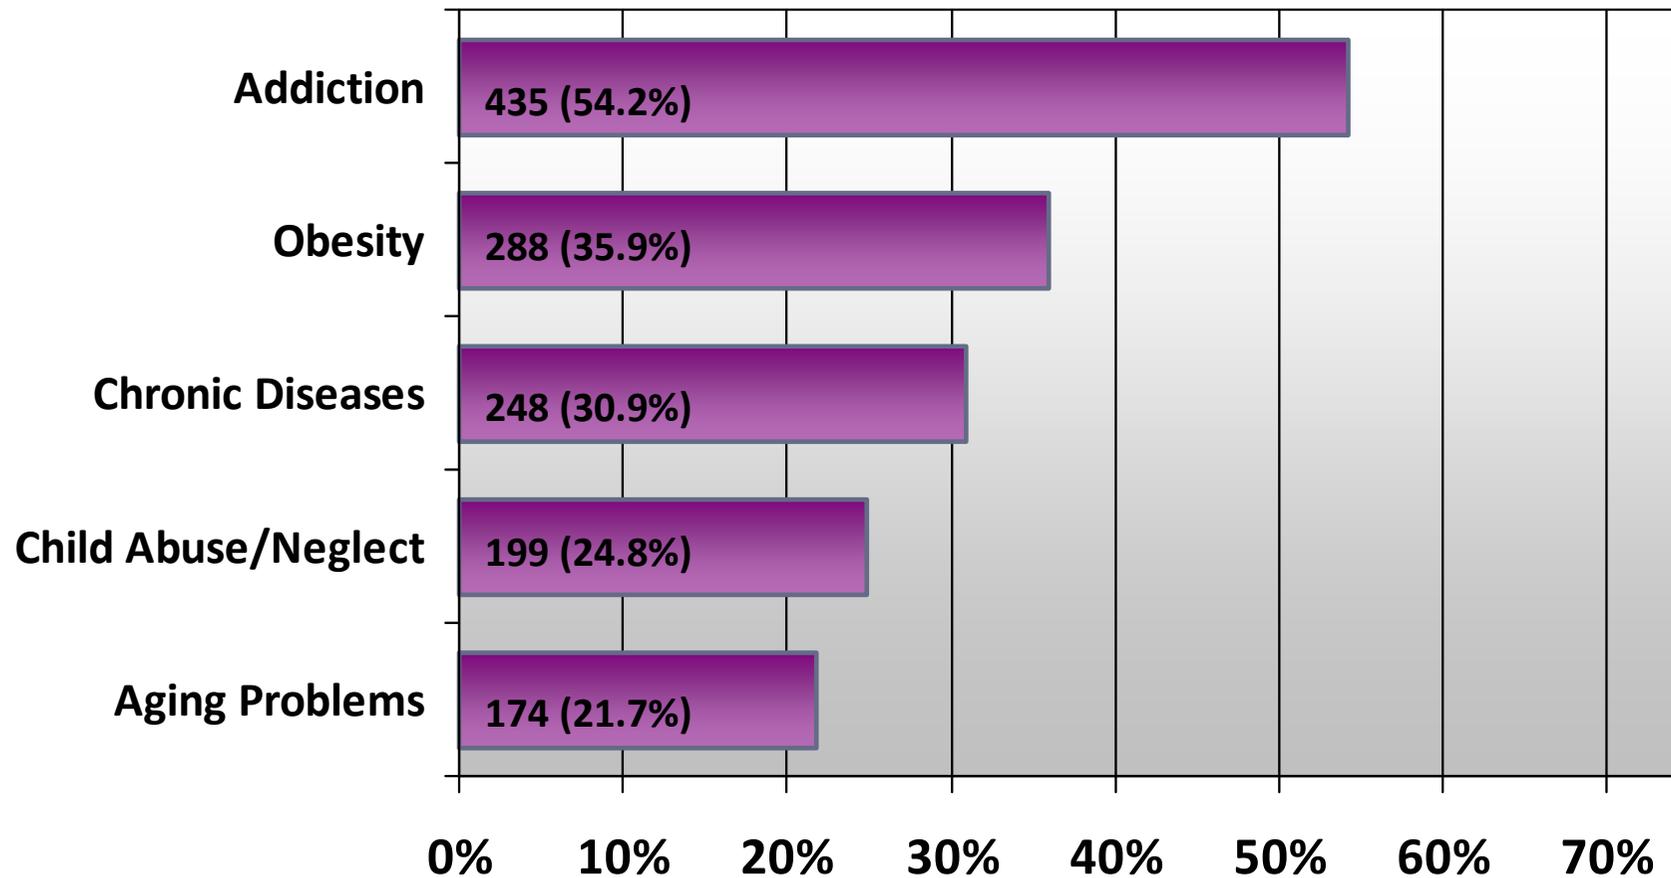

32

Respondents could choose up to 3 factors; pictured are factors selected by > 25% of respondents

# Health Problems of Concern in Your Community (n=803)

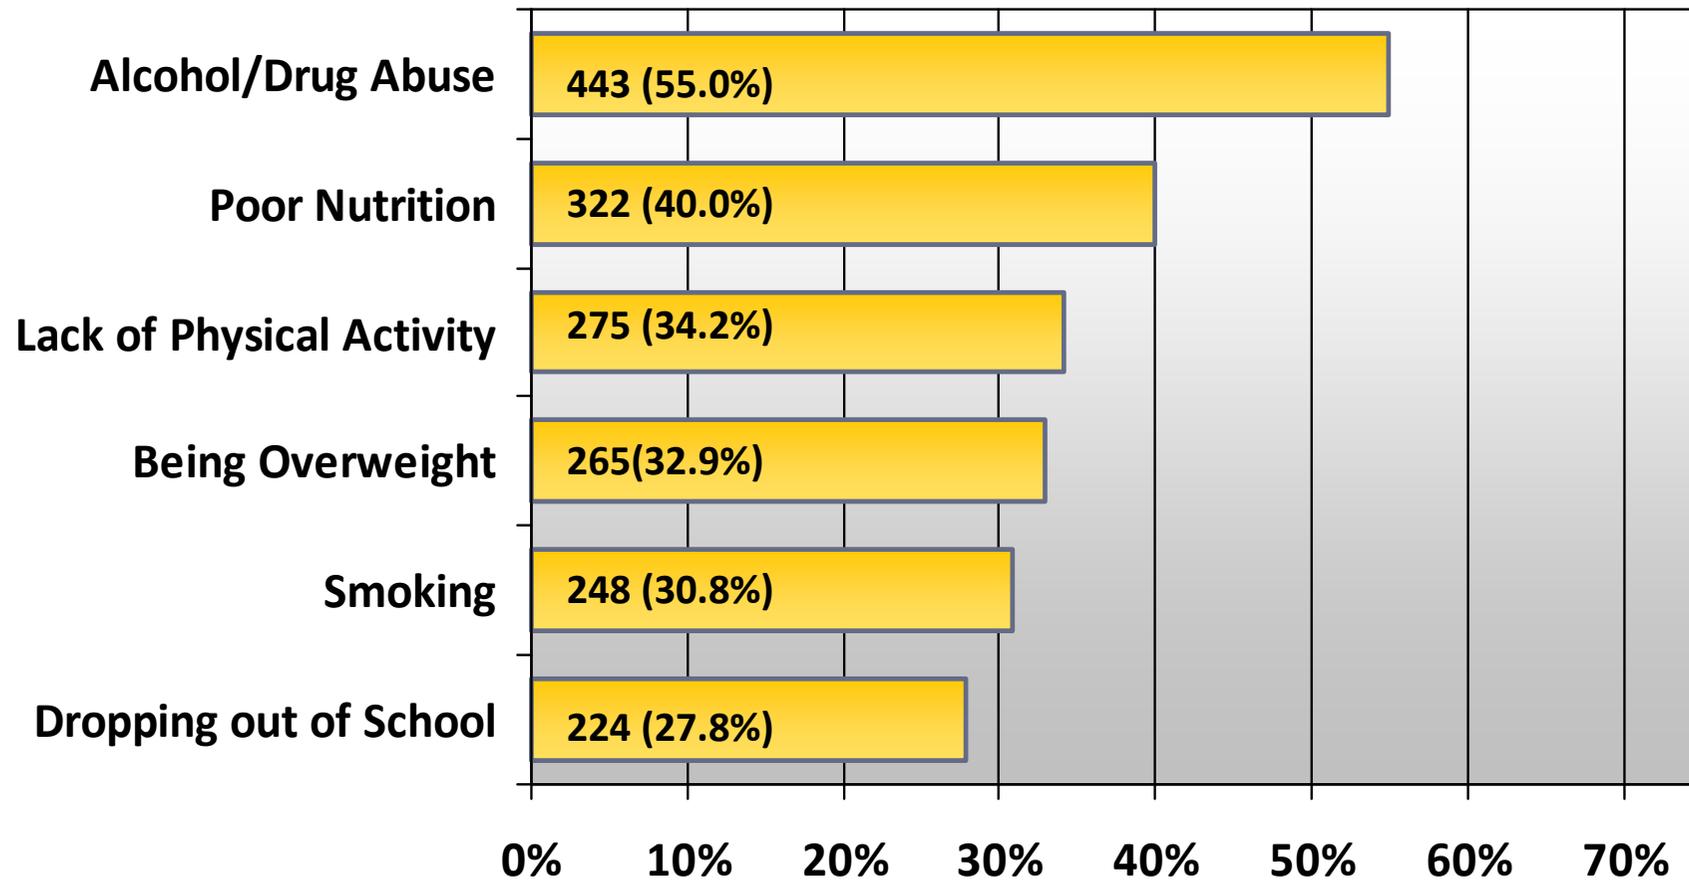

33

Respondents could choose up to 3 problems; pictured are problems selected by >20% of respondents

# Behaviors of Concern in Your Community (n=805)

34

Respondents could choose up to 3 behaviors; pictured are behaviors selected by > 25% of respondents

# Local Public Health System Performance Assessment

35

**The Local Public Health System Performance Assessment** focuses on all of the organizations and entities that contribute to the public's health in our community.

# Local Public Health System Performance Assessment

36

Answers the following questions:

- What are the components, activities, competencies, and capacities of our local public health system?
- How are the essential public health services being provided in our community?

# Local Public Health System Performance Assessment

37

- Sponsored by the Pinellas County Health Department and conducted by the Suncoast Health Council via 2 half day collaborative sessions on July 28 and August 11, 2011.
- Self assessment based on the CDC National Public Health Performance Standards Program (NPHPSP)

# Stakeholders Represented

38

- Pinellas County Health Department
- Suncoast Health Council
- Pinellas County
- City of St. Petersburg
- Juvenile Welfare Board
- Intercultural Advocacy Center

46

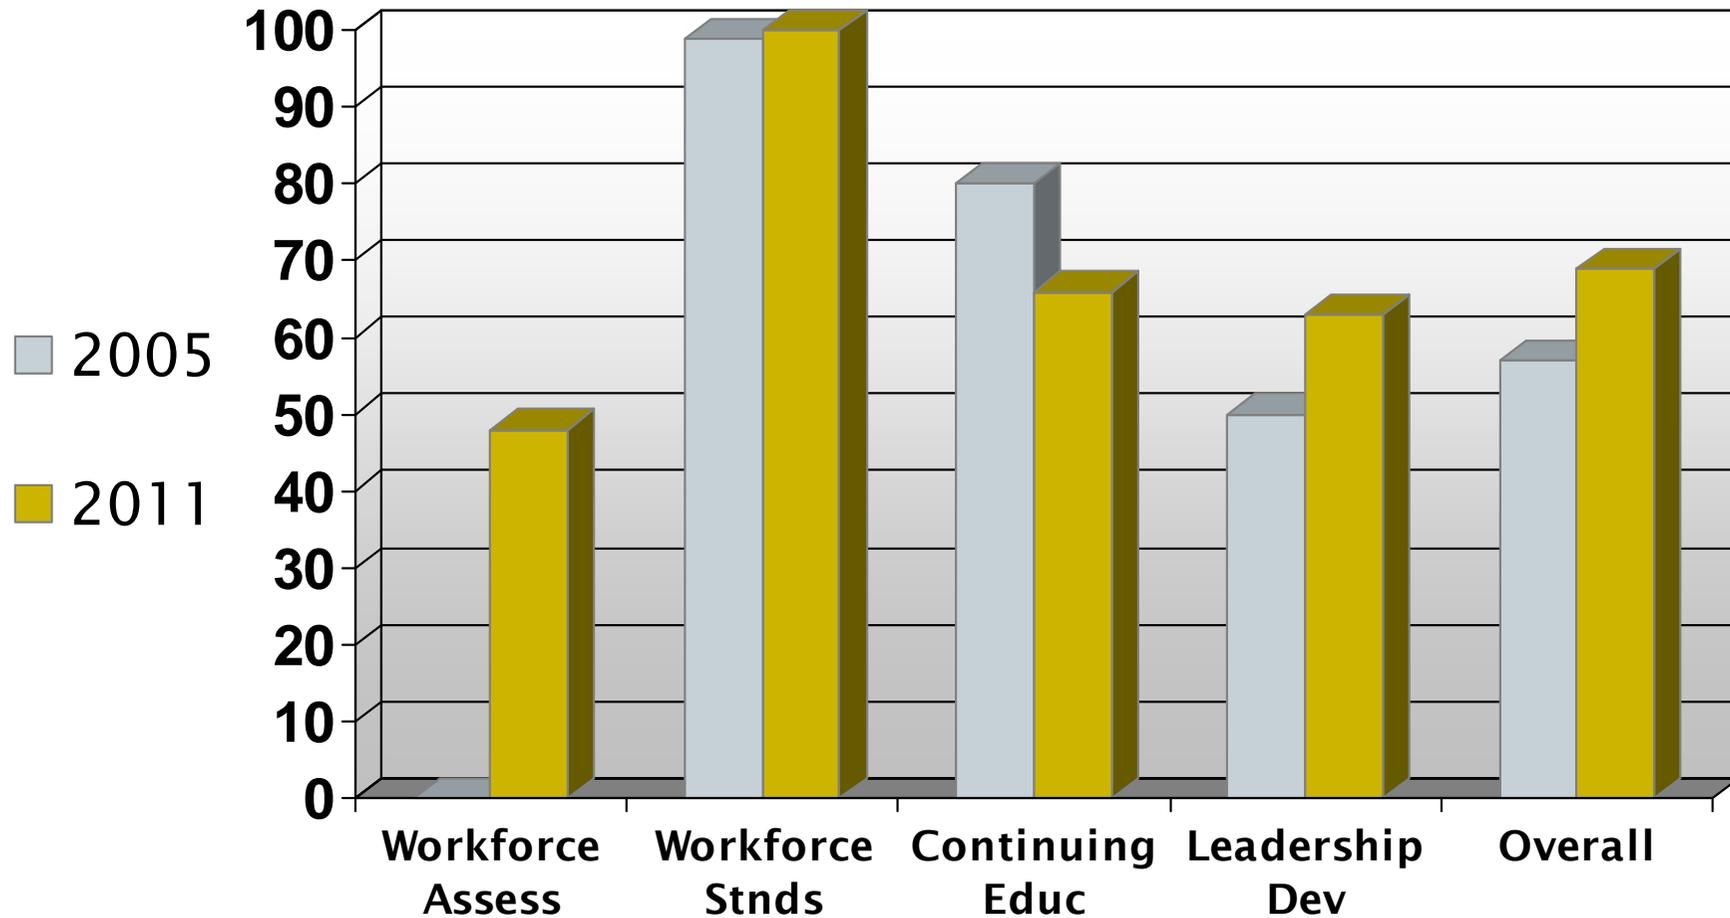

# ES 7: Link people to personal health services and assure care when otherwise unavailable

47

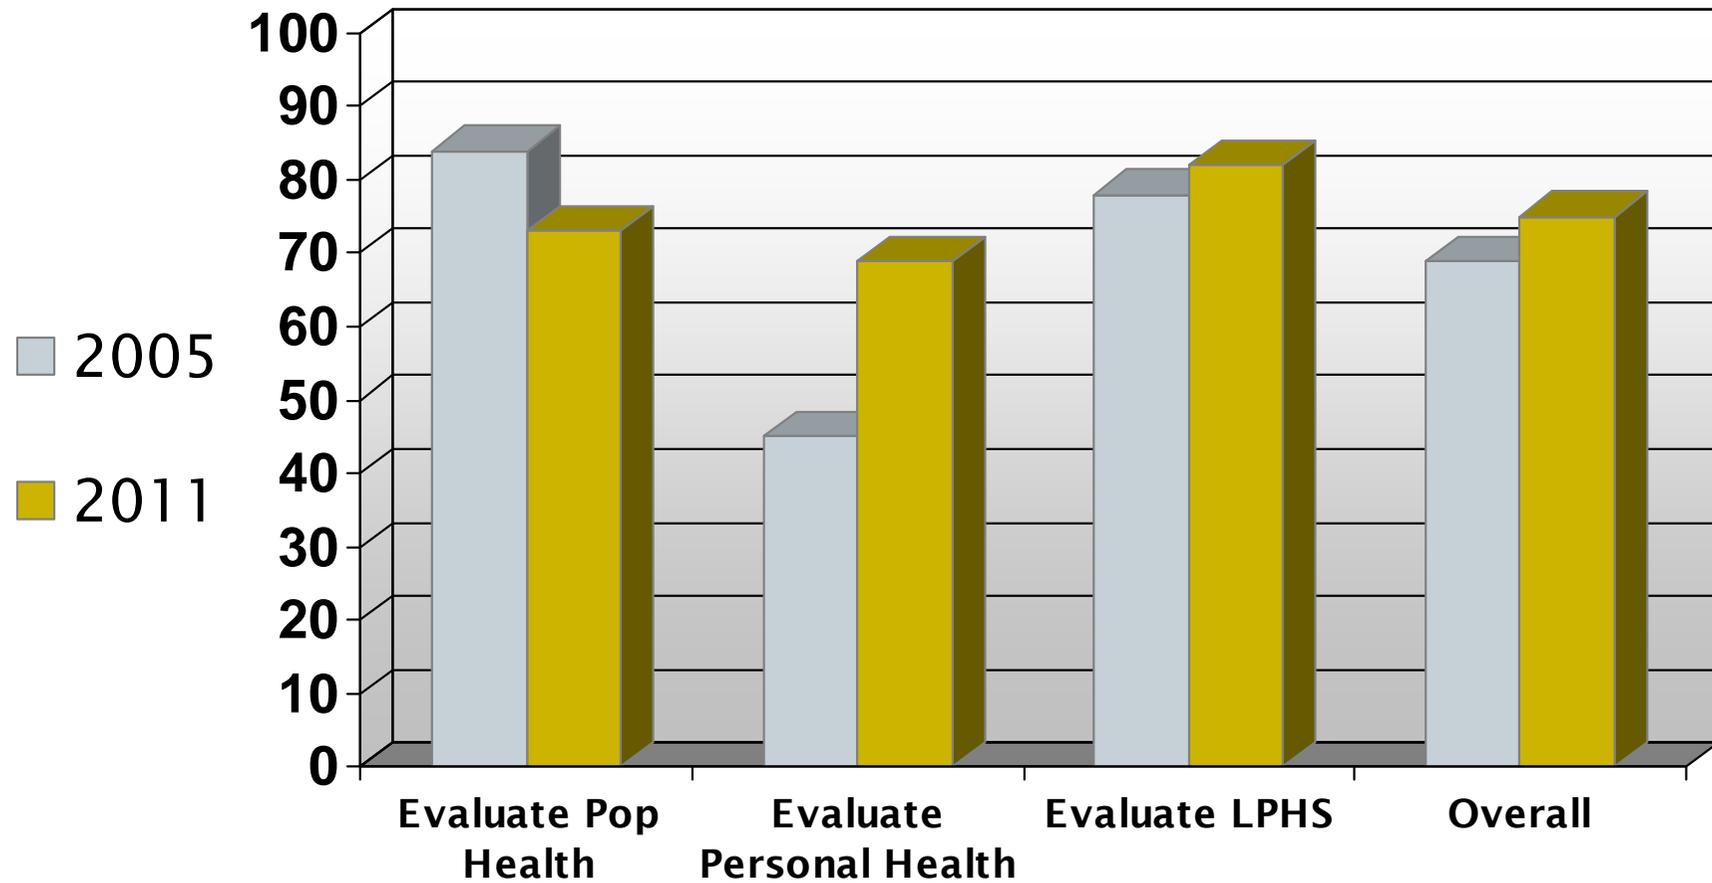

# ES 8: Assure a competent public and personal health care workforce

48

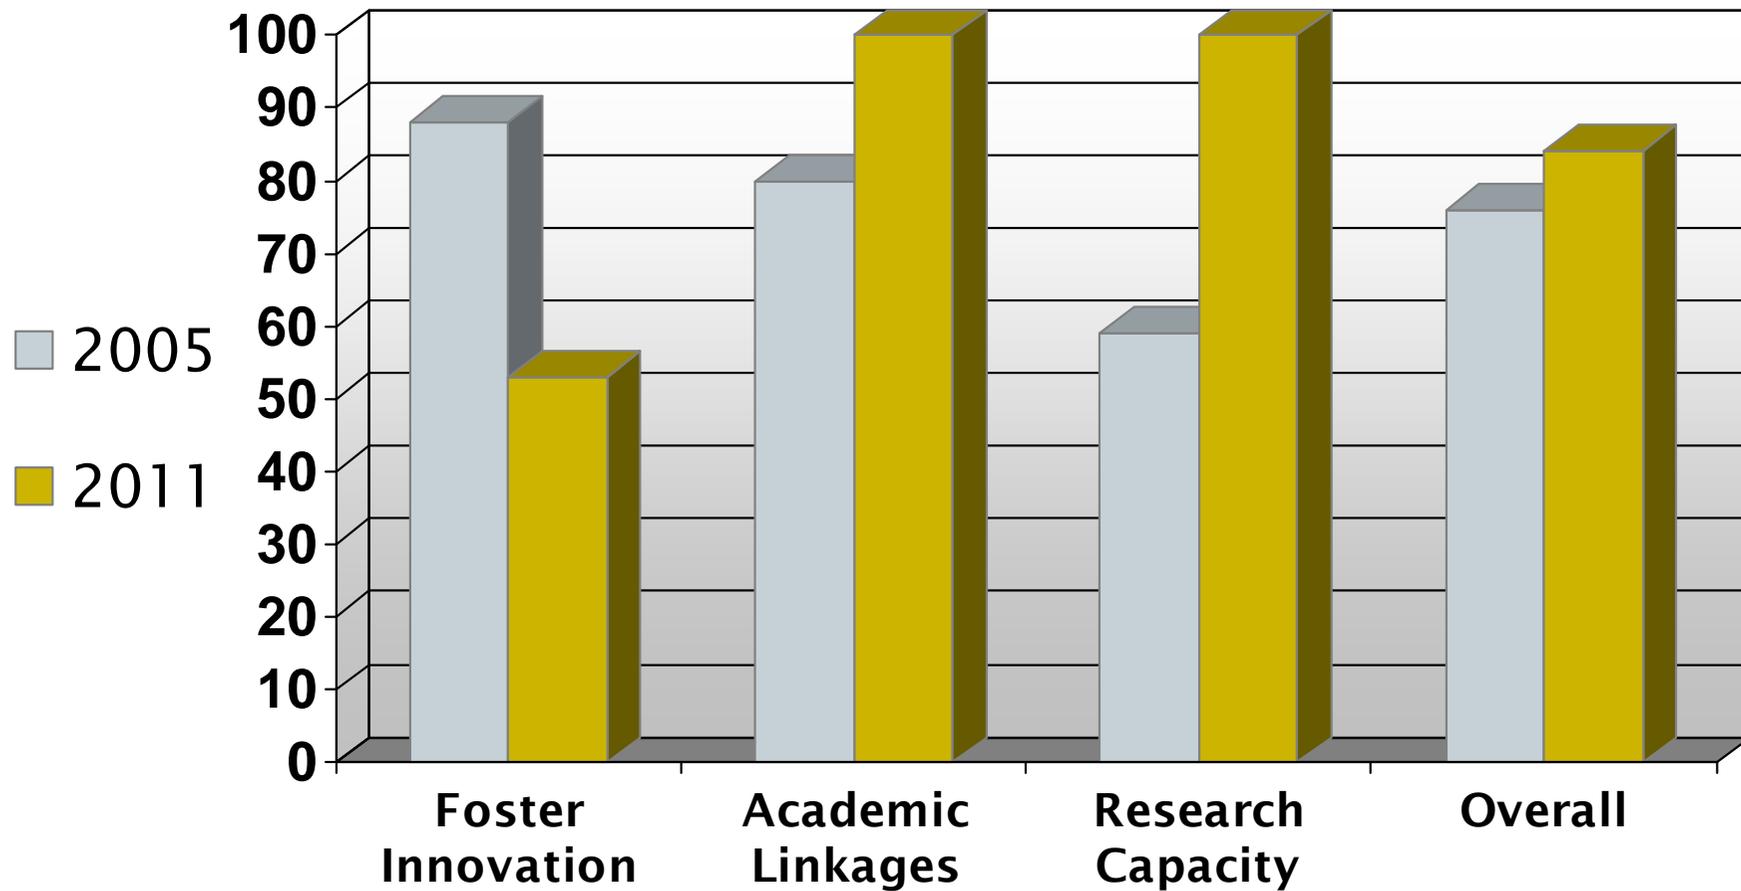

# ES 9: Evaluate effectiveness, accessibility, and quality of health services

# ES 10: Research for new insights & innovative solutions to health problems

50

# Forces of Change Assessment

51

**The Forces of Change Assessment (FOC)** focuses on identifying forces such as trends, factors, events, and other impending changes that affect the context in which our community and public health system operate.

# Forces of Change Assessment

52

FOC answers the following questions:

- What is occurring or might occur that affects the health of our community or the local public health system?
- What specific threats or opportunities are generated by these occurrences?

SOCIAL

ECONOMIC

POLITICAL

TECHNOLOGICAL

ENVIRONMENTAL

SCIENTIFIC

LEGAL

ETHICAL

## Forces

Forces are often social, economic, political, technological, environmental, scientific, legal, or ethical and influence the health and quality of life of our community and local public health system. Forces pose threats and/or create opportunities for our public health system and community.

# Pinellas County Forces of Change

54

- Conducted as part of the Community Health Assessment collaborative engagement on May 8th.
- Participants worked with an assigned team to identify forces of change in Pinellas County and the threats and/or opportunities generated by these occurrences.
- Each team had a partner team whose work they reviewed.
- 10 Essential Public Health Services were used as the framework

SOCIAL

ECONOMIC

POLITICAL

TECHNOLOGICAL

ENVIRONMENTAL

SCIENTIFIC

LEGAL

ETHICAL

# Pinellas County Forces

## Key forces identified:

- Economy
- Health Care Reform
- Medicaid Reform
- Decreasing budgets at federal, state and local levels
- Declining reimbursement
- Technology development (EMR, common eligibility, social media)
- Outcomes driven funding
- Increasing regulations
- Aging population

# Pinellas County Threats/Challenges

56

Key Threats/Challenges posed from identified forces:

- Increased costs to implement reform
- Sustainability of programs and services
- Defunding of community programs
- Loss of personal choice
- Difficult to plan for changes and understand ramifications
- Misinformation due to media bias
- Limited local ordinances/decision making
- Increase in patients/decrease in providers

# Pinellas County Opportunities

57

Key opportunities created from identified forces:

- Increased awareness
- Impetus for collaboration; grassroots activism
- Shift to prevention focused care
- Increased accountability among providers
- Personal accountability encouraged
- Empowered patients
- Fostering innovation
- Increased access to healthcare coverage and possibly care
- Increased opportunities for data and information exchange

# Community Health Status Assessment

58

## The Community Health Status Assessment

Identifies priority community health and quality of life issues. It provides an understanding of the health of those who live in the community.

# Community Health Status Assessment

59

## Answers the following questions:

- What are the socioeconomic factors impacting the health and quality of life of our community?
- How healthy are our residents?
- What are the leading causes of death and illness among residents?
- How do the lifestyle behaviors of our residents contribute to community's health status?
- How does the health status of our community compare to that of years past, other communities, and to the state and nation?
